

PROMOTING SECURITY, STABILITY, AND PEACE IN AFRICA

# **US ARMY AFRICA (USARAF) G4**

**COL Mike Balser  
ACoS G4**

# USARAF Command & Support Relationships

# Historical Contracting Lessons Learned

1. Contracting Requirements
2. RFF Language
3. Contracting Oversight
4. MDMP and Contracting Process
5. Contracting Doctrine vs. AFRICOM AOR
6. COR Management

# Command Contracting Guidance

- Capacity-building
- Use organic support
- Know your capabilities.
- Contracting is a Service-immaterial capability
- Process at the Joint level must be Equitable and Transparent
- Contracting capability is a Strategic Resource
- Flexible

# AFRICOM Contract Instruction Revision

• Sec/Joint Force /  
JTF

- AFRICOM –
  - Develop a Contract Support Integration Plan (CSIP) in every OPLAN / OPORD
  - Establish, and execute appropriate operational contract support related boards, centers, and working groups
  - Centrally track and monitor all contracts
- Train your folks
- Ensure contract oversight management processes and manpower requirements to execute oversight
- Define a complete contract requirements package (to include funding)
- JELC path to

# JELC Pathway

**CDC** – ballpark requirement

**IPC** – refine with Executing Unit (EU)

**Vendor Conference** – through EMB General Services Officer to “flesh out” local capabilities

**MPC** ends with EU handing KO a fully staffed Requirements Package

**FPC** ends with contract award and all systems “go”

# **USARAF Recommended Ways Ahead**

1. AFRICOM Joint Instruction
2. Joint Contracting Board
3. Increase lead time between planning and execution
4. Education program on contracting processes and operations
5. Greater understanding and execution of ACSA agreements with African partners
